SUMMARY

Ambitious MERN Stack Developer with 2.4 years of IT industry experience in networking and desktop support, now transitioning into full-stack development. Proficient in building scalable web applications using MongoDB, Express.js, React.js, and Node.js. Experienced in designing RESTful APIs, implementing secure JWT-based authentication, and developing responsive, user-focused interfaces. Brings strong analytical thinking, structured problem-solving abilities, and system-level understanding from IT operations background. Seeking an entry-level developer role to contribute technical expertise, build impactful applications, and grow into a high-performing software engineer.

TECHNICAL SKILLS

HTML and CSS	JavaScript	React Native
Bootstrap5	React.JS	Node.JS
Tailwind CSS	Redux	Express.JS
Mongoose	Restful API	MongoDB
Github	GIT	

PROFESSIONAL EXPERIENCE

Information Technology Executive

Competition Team Technology(India) Pvt Ltd (Foxconn)

Oct 2023 - Present

- Provided L1/L2 technical support for desktops, networks, and internal IT systems across the organization.
- Diagnosed and resolved hardware, software, and connectivity issues to ensure minimal downtime.
- Managed user access, system configurations, and basic security implementations.
- Installed, configured, and upgraded operating systems and enterprise software applications.
- Developed structured problem-solving and analytical skills through real-time issue handling.
- Worked closely with internal teams to analyze technical issues and identify root causes.
- Assisted in troubleshooting application-level issues and coordinated with vendors/developers for resolution.
- Maintained system documentation and incident reports to improve issue resolution efficiency.

EDUCATION AND CERTIFICATIONS

Computer Science and Engineering

Gnanamani College of Technology / Namakkal

Jun 2018 - Apr 2022

Full Stack Web Development Program

Ekeeda Education / Mumbai.

May 2023 - Feb 2024

- Completed an intensive MERN Stack development course covering MongoDB, Express.js, React, and Node.js.

PROJECTS

Real-time Chat Application

- **Overview :** Developed a real-time chat application using the MERN stack, allowing users to send messages instantly with WebSocket-based real-time communication. Implemented authentication, notifications, and media file sharing, ensuring a smooth and secure chat experience.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, WebSockets, JWT Authentication, Socket.io
- **GitHub Repository:** <https://github.com/BharathiKannanBabu/Fullstack-Chat-app2>
- **Live Demo:** <https://fullstack-chat-app2.onrender.com>
