SUMMARY

Passionate MERN Stack Developer with 2.6+ years of hands-on experience in designing, developing, and maintaining full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js). Skilled in building scalable and responsive web applications using MongoDB, Express.js, React.js, and Node.js. Experienced in developing RESTful APIs, implementing JWT authentication, integrating third-party services, and managing both frontend and backend development.

Strong understanding of JavaScript, React ecosystem, state management, API integration, database design, and responsive UI development. Adept at solving real-time technical problems, debugging applications, and delivering efficient software solutions. Seeking an opportunity to contribute technical expertise and grow as a professional Full Stack MERN Developer.

TECHNICAL SKILLS

Frontend Technologies :

- HTML5
- React.js
- Tailwind CSS
- Formik & Yup Validation
- CSS3
- Redux Toolkit
- React Query
- JavaScript (ES6+)
- Bootstrap 5
- Responsive Web Design

Backend Technologies :

- Node.js
- JWT Authentication
- Middleware Handling
- Express.js
- Socket.io
- CRUD Operations
- Restful APIs
- API Integration

Database & ORM :

- MongoDB
- Mongoose
- MySQL

Tools & Platforms

- GIT
- VS Code
- Cloudinary
- GitHub
- Netlify
- Postman
- Render

Other Skills :

- Debugging & Troubleshooting
- State Management
- Real-Time Application Development
- Version Control
- Problem Solving
- CRUD Operations
- Authentication & Authorization

PROFESSIONAL EXPERIENCE

MERN Stack Developer

Competition Team Technology(India) Pvt Ltd (Foxconn)  Oct 2023 - Present

Key Responsibilities :

- Developed scalable full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Built responsive and reusable frontend components using React.js, Bootstrap, and Tailwind CSS.
- Designed and developed RESTful APIs using Node.js and Express.js.
- Integrated MongoDB database with Mongoose for efficient data handling and schema management.
- Developed CRUD operations for multiple modules and business functionalities.
- Worked on frontend form validation using Formik and Yup.
- Used Git and GitHub for version control and project collaboration.

Development Experience :

- Built and maintained MERN stack applications for learning and development purposes.
- Developed REST APIs using Node.js and Express.js.
- Designed responsive frontend interfaces using React.js and Tailwind CSS.
- Integrated MongoDB database operations using Mongoose.
- Implemented JWT-based user authentication and authorization.

PROJECTS

Real-Time Chat Application

Tech Stack : React.js, Node.js, Express.js, MongoDB, Socket.io, JWT Authentication

Project Overview : Developed a full-stack real-time chat application using the MERN stack with instant messaging functionality. Implemented secure authentication, online/offline user tracking, media sharing, and responsive UI for seamless communication.

Key Features :

- Developed real-time messaging functionality using Socket.io.
- Implemented JWT-based user authentication and protected routes.
- Built responsive user interface using React.js, Tailwind CSS and Hero UI.
- Added image upload and media sharing functionality.
- Created scalable backend APIs using Express.js.
- Integrated MongoDB database using Mongoose ORM.

- Live Demo: <https://blink-chat-dn1e.onrender.com>

EDUCATION AND CERTIFICATIONS

Computer Science and Engineering

Gnanamani College of Technology / Namakkal

Jun 2018 - Apr 2022

Full Stack Web Development Program

Ekeeda Education / Mumbai.

May 2023 - Feb 2024

- Completed an intensive MERN Stack development course covering MongoDB, Express.js, React, and Node.js.
